2012  
PURE & SIMPLE  
IS LAUNCHED

*It's hard to believe that our company is now entering its 20th year. In some respects we feel the company is all grown up but our daily learning experiences sometimes dictate otherwise.*

*If ignorance is bliss then we are a living testament to that adage because we knew virtually nothing about the food industry when Wildly Delicious sold its first bottles. Driven by the adrenaline rush of a new venture and a set of products that had instant public acceptance we held on tight and went for the ride of our lives.*

*In the past 20 years we have seen our share of successes and some failures but more importantly we have learned so much about something that is so fundamental to our basic existence – food. And while we have been fortunate to design and produce some really cool food lines for some of the world's most notable companies and chefs, we never want to lose sight of the fact that food, in its simplest form, can be equally spectacular.*

*So as we embark on our 20th year, we are thrilled to introduce to you, within these pages, the Wildly Delicious brand re-imagined. However, our new packaging, updated graphics and logo only tell part of the story. We have redesigned the majority of our products to be simpler, cleaner, preservative and additive free versions of their former selves. At the same time, we tailored some product lines while expanding others to give you, our customers, the best product offerings our 20 years of experience can provide. All grown up? Maybe but we will never stop learning and exploring our passion for awesome food.*

*Austin & Muscat  
Michelle Muscat*

2008

We launch our single most successful product ever- the Brie Baker.

2009

Beet & Red Onion Marmalade wins SOFI™ award for best condiment.

Petite Maison SOFI™ Finalist for Outstanding Product Line.

2014

Wildly obtains CFIA registration for regulated products.

2015-2016

We will be adding an exciting new product line for Fall 2015 and look for changes to our Pure & Simple line of products.

## HANDCRAFTED EXPELLER PRESSED WALNUT OIL

*Handcrafted in California following a 150-year old French tradition, walnuts are hand roasted in small batches and then expeller pressed to extract a delicately fine oil with a distinctively roasted walnut flavour. Adds artisanal charm when used to bake breads and cakes, and earthy complexity to leafy salads.*

B49 | RWO PM | 621787025378

## EXPELLER PRESSED GRAPSEED OIL

*As a byproduct of winemaking, the humble grapeseed is an unsung hero in the culinary world. Having touted the virtues of grapeseed oil for more than a decade we are now able to offer an expeller pressed version of this incredible product. Light, non-greasy oil with a delicate nutty flavour, grapeseed oil emulsifies beautifully into dressings and won't solidify when refrigerated. As it has a very high smoke point, it's the oil of choice for frying and sautéing.*

# Daring Distinction

Certain products seem to fly under the radar of innovation, remaining unchanged for decades and Malt Vinegar seems to be one of those products. Well, we've applied fresh eyes to this very traditional fish & chip condiment with spectacular results. These three new flavoured malts are guaranteed to raise an eyebrow and catch a smile of approval.

Richly flavoured yet well balanced, they retain all the characteristics of a great Malt Vinegar but add another dimension of flavour to french fries and battered fish.

*A butter bowl is a ceramic dish with a simple, ingenious design that keeps butter at the perfect consistency for spreading while also preventing it from turning rancid. The bowl-shaped insert holds about a stick of butter and stores into the crock creating an air free seal when filled with a bit of water, keeping the butter at room temperature. Other than changing the water every few days, it requires little more maintenance than a regular butter dish and the round footprint saves some counter space. Box includes: 2 piece ceramic in natural cream colour.*
